

At Haselmeier we combine experience and flexibility to develop injection devices meeting your specific requirements.

Technology

With a long history in device development, Haselmeier is able to offer various state-of-the-art product platforms with a focus on both the quality of the device and the efficiency of manufacture and assembly.

Function

A focus on patients unmet needs helps Haselmeier to develop innovative functions to make injection easier and comfortable.

Design

Haselmeier tailors existing Pen designs to satisfy customer and patient needs.
